Director General, Technical Education, Haryana  
&  
Secretary to Govt. Haryana, Technical Education Department

D.O. No. ....1458/HSTES

Dated : .....21-09-2021

**Message**

Dear Students,

World is changing at a fast pace as per the advancements in technology. Technical Education is gaining importance and attention in all industrially advanced countries because of its immediate service in securing economic prosperity for the people. An innovator and leader in the field of educational technology David Warlick, has rightly said that "We need technology in every classroom and in every student and teacher's hand, because it is the pen and paper of our time, and it is the lens through which we experience much of our world."

There is dire need for engineers, technologists and technicians of various kinds as science and technology has a direct impact on industry, agriculture, transport and communications, public health and other activities. It is the necessity, today, to produce fully skilled manpower /knowledgeable technocrats as per needs of the Industry, Society and the Global World as a whole in order to contribute to economic growth of the country.

Technical Education, Haryana is making all the efforts to fulfil this need by providing quality and affordable education to all sections of the society. It has been our Endeavour to develop institutes equipped with modern infrastructure and technological support to facilitate the teaching- learning process.

There is a saying "Education is our passport to the future, for tomorrow belongs to the people who prepare for it today."

I convey my best wishes to all the students and their parents for a successful future and good education.

**Dr. Chander Shekhar Khare**  
**DGTE-cum-Vice Chairman, HSTES**
